SCHOOL OF CHAMPIONS BEGINS NEW YEAR 2009

The School of Champions began the new year on January 12th, just where it left off in December, with 250 eager students running to the front gate to be first in line to get to their classes. Their enthusiasm to learn remains at the same extraordinarily high level. Their optimism never changes; they believe in their future. Our obligation is to continue to give them the opportunity to get the best education available so that their dreams become reality.

Our enrollment has not decreased as the school year continues as it has in the past. If anything, new students continue to show up at the front gate each day. This increased enrollment makes the completion of the two new classrooms even more important. We are looking for an additional \$2,500 US to purchase a transformer which is required to add the new classrooms and the dental clinic to the electrical grid at the school. We have been running at capacity even before we began the new construction. Once the transformer is purchased and up and running, we will complete the classrooms and shift some of the students from the already overloaded existing classes. We will also be able to add more grade 7 students, most of whom were in our program last year. We have recently added the additional teachers required to meet the increased enrollment.
